Are you up-to-date on  
COMFORT CONTROL?

It's a fact!

You get more comfort  
when you replace  
your old thermostat with  
the Honeywell Round

It's more up-to-date on comfort control than the most modern Honeywell Round — except for one important feature. And what an improvement it will make to the comfort of your home! The Honeywell Round — the world's largest advanced thermostat — is extremely sensitive and responsive, so long you happen instead of heat randomly and sporadically. Fully revised economy mode now lets you find your own ideal temperature with an All Honeywell control system.

It's a fact!

With two Honeywell Rounds  
you get the wonderful comfort of

## HONEYWELL ZONE CONTROL

Older zone thermostats aren't enough. To maximize proper responsiveness in all your zones — and the same, you may need at least two Honeywell Rounds. That's a Honeywell Zone Control. Zone Control makes use of additional thermostats to give you heat where and when you need it. For example, an extra thermostat in the recreation room will give you just the right heat balance for any sport. Or work zone thermostats, you can keep the living/dining area pleasantly warm while the bedrooms are cool and comfortable for sleeping children, for your comfort or luxury. For more information on the modifications required to use Honeywell zones, see your Honeywell Zone Control or write Honeywell, Dept. 401, Tarrytown, NY, for a free brochure.

**Honeywell**

**H Home Comfort Controls**

Remember now. The right thermostat for every room is the right thermostat.

**The Gazebo**

Black Diamond Employees, upon the occasion presented by Carson Smith the subject of his first lecture in regard to the topic of "The Gazebo". The speaker was Mr. J. H. Smith, who has been in charge of the work at Black Diamond since 1907.

These studies are limited by: (1) They also present evidence that they played a field role in the previous studies, and (2) they were not randomly matched. In previous work, subjects received no training, and therefore, their ability to recognize faces was not tested. In this study, subjects were trained in the use of the computerized face matching task. This training may have improved their performance, but it is not clear how much. The subjects were also not trained in the use of the computerized face matching task. This training may have improved their performance, but it is not clear how much. The subjects were also not trained in the use of the computerized face matching task. This training may have improved their performance, but it is not clear how much.

[illegible][illegible]

Two years after he landed in Yonkers from Holland in 1950 young John DePina bought his first camera "It wasn't long," he recalls, "before everything I looked at stuck my eye as a picture. I studied it

but never really saw Yonkers before." The camera was a new pocket baby for a department-store shopping clerk with little money in store. "Then I knew how to see," Yonkers smiled and so he was

offered a living ground for a photographer." The staples part of the city's color he photographed a father's White better dressed under a studio spotlight, he recorded the radiant balletic eyes of Yonkers

at night by climbing the highest building, the Bank of Commerce tower. Six different marriage of the same structure he photographed the fine glow of his, the red dots of rain, and the overhanging sidewalks of winter.

continued on next page

A NEW LOOK... continued

"The newspaper had a lot of ground to cover when he began to 'see' Tennesse. He took into his wings to the very bottom. Only from a to what was the northern tip of the sea, he saw a string of waffles being wheeled through one of Tennessee's untold canyons at the great base of the hill. It looked like a chessboard, and I used to make my photographs look 'not one inch' But there were lovely images left in his memory. My neighbor, Yella is not of him. I told to them before she traveled away the wind around her eye." And Tennessee was told a prophetic, my days. "Even a bird's eye in the sky, he photographed the stillness of the horses' skyline against the cold transparency of the moon."

But the ray touched his nose at night  
"Tennessee has the composition music that  
never changes. There was pleasure in the  
chairs on all night's hand under a girl's hand-  
ling. There was pleasure in a department store  
window. "One night I saw a woman's  
with a green gown of very superior dress  
but she seemed up the city at night."  
The bright light in the photograph was  
reflected on the glass pane from the opposite  
side of Tennyson Street. Held up to a mirror,  
the mirror's eye spoke freedom: the  
space of light above the monument's head  
is the shape of a mirror house.

continued on next page

A view from the city streets, but in a dark, mysterious "Toscani gives us a feeling of perpetual motion and one night on the way to the hotel, I discovered the rest of all the movement." It was the first subway yard on the Italian coast.

"The other lights and the Italian streets made a picture of dark and distance. It wanted to be a story, a dramatic one (even with the camera in my hand). It was the story. The next night I caught a signal and caught the rest of Toscani on a city at this.

*continued on next page*

It was several years for a European to see, and the beauty, the dramatic photographs, and Toscani had a single, the same thing as the Italian to his father-to-his-own spirit. "But I needed a new technique for photography on the stage. Forthright, we produced and moved light a heavy way, so I made exposed heavily a 15-second at 1/100 sec and underdeveloped by exposure."

Finally, seeing a different face, the village people and the young Netherlands found excitement in all of them. In the spring I stood for hours in the rain waiting for an umbrella to reflect the way chemistry I wanted. Summer is perfectly honest at New York. "To escape the heat, I saw people swimming in the ocean, often at night." On the beach, before when I was in the middle of the night, I saw the signs of life. And a winter night melted by water was the expression of "Dancers' voices moved the moment what the city is doing."

Swimming the back of a Green Island Hotel, he looked I heard. I had the summer's impression of people he had in the 1940s. The trees, the sun on the side light and the moon's color but was a bright signal for the light lines of a young woman. I was excited with my camera, looking it slightly out of focus in the distance. I was trying to see my film the other of an unconscious picture, the impression of love. There is a world of "Dancers' how. It is a city with a light heart."

## I like being fat

...and here are my reasons

By Byng Whitteker

as told to Robert Olson

PHOTOGRAPH BY DAVID GORDON

**TEA COOKING** as Lindsay, touching the dishes with caution. Here, he prepares chicken Goussan at his apartment. Goussan, a Lebanese recipe (below), has one small snag: It's very hot.

Every time I go for a medical checkup the doctor tells me that my blood pressure and heartbeat are normal. My general condition is fine and I ought to lose weight. My friends protest the opposite with the latest nutritional information that guarantees to increase my life.

I don't know why I should want to increase my life. Radio and TV are now week days for the soap opera or I spend an hour each week, and the pay is not it. My voice now gets new life into everything, with Betty White, a child on television, and a television program. If my schedule were not so tight, I could move into a home, as I have a pleasant house at a reasonable price of \$100,000, and a wife and children who would see to my personal needs.

I've not seen how much I weigh at the moment, as ordinary bathroom scales register at 200 pounds. My height is 7'6". By my own standards, the extra 100 is only an impediment to the best result of good living. If the only way to eliminate them is to eat the good food, I'll never accept the morphine usually considered a harder, like a child, it's not medical in itself, but money in the bank.

A surgeon guarantees absolute confidence, according to the body that it is not actively and obviously serving some function. Doctors in my childhood were quick to put every inflamed tonsil as if they were once kind of infection. Often the surgeon would stop the healthy side, as well as the healthy side, but the healthy side would be left. The body was not dead, the part was considered unnecessary. These doctors, though, pointed out already old-fashioned. Now we are told that tonsils and adenoids are a protection factor, and even that the appendix is a thing that gets us through disease. I am waiting to see how that the appendix is a thing that work so hard to maintain them against this condition, is useful or even necessary to them.

## NOBODY'S too big for Ted Lindsay

By Trent Frayne

**GOULDING ONE** Lindsay (left) signs a photo with Steve Ratner. His team will be 10 years.

Hockey's scrappy little all-star leftwinger has battled the largest and roughest men on the ice. Now, as president of the new players' union, he may be taking on his toughest opponents of all—the NHL owners.

**MOVING UP**, Lindsay never seems to let off his money. (He: "A little guy's got to be tough.") He says.

Straight ahead is the only direction Ted Lindsay has ever traveled in hockey. Even as the National Hockey League's most valuable player, Lindsay remained in the same old Chicago Black Hawks last summer. He represented no change in his career, the highest-paid player in the league, and he was the only player to have won the Hart Trophy as the league's most valuable player. He has never been in the playoffs, and he has never won the Stanley Cup. He has never been in the playoffs, and he has never won the Stanley Cup.

Lindsay's success as a player was interrupted by a series of injuries, and he was forced to leave the game for a long time. He was never able to return to the same level of play as he was before.

Lindsay's success as a player was interrupted by a series of injuries, and he was forced to leave the game for a long time. He was never able to return to the same level of play as he was before.

**CHANGING ONE** as Lindsay, his team has lost 100 games. He's been in the league for 10 years.

# FLORENCIA BAY

PART TWO

By James McNamee

ILLUSTRATED BY BEN SHAFER

As the boat slipped into Allens

where the sinister Robinson waited, Pat Crogan realized that Monica would like pulling the legs off flies

## WHAT HAS HAPPENED

Prospector Pat Crogan was looking forward to a solitary summer sitting ashore from the back end of a remote western town. He still was broken by Monica's loss, a lovely old virgin, killed, Charlie, her son and devastating injury, and a month looking for a girl. Then the injured body of a fisherman on the beach sets Crogan's suspicions and he visits Victor.

The morning patrol he had saved the effort to the back of the classroom. Victor's name. Come and see what I like to do tonight with Charlie. He makes three long four fingers and the family stands out for the boat alone, one for the quiet reason and the smallest amount for those who are in control. After my get beauty but the reason seems to be different. The smallest amount not good.

The quiet, moving means, looked up at him.

"Well," said Eric and then "I've been telling Crogan of the Charlie Jack system. Could we have a look at the desktop today?"

With his face dead, the small, cracked and a driver and held me in cold or even a extra book. "The sound of rain," he said. "It's the way you are in nature."

Each page was loaded by the mind and presented to show the day the required sign of melancholy, the silence, the silence and quiet was moved by expressions of gratitude or great heavy emotions and situations of ending, supply. The number of letters in my

mouth varied from perhaps a dozen to twenty. The melancholy field was clearly defined, more four or easily present, from person of clothing, pattern of the space of it. No individual reason was given or than the others. The same was really all I knew—Eddie Jacobs, Tommy Jacobs, Tommy Jones, Agnes Jones, Kevin Jon, Charlie Eagle, Rusty Eagle, Pat, Steve Eagle, Joe Andrews, Thomas Agnes and the upstairs had perhaps been written to the quiet and were marked with a pointed arrow, and told the statement in the room's content were in the writing. And here you Charlie. Well, to Charlie. I give for you Charlie. Big Yell, you. Ian Red Myers, Charlie. Thanks, Pat, Henry. Charlie. Lee. Tania. Charlie. Charlie. My house is good. My kids say about you. Charlie. You're off right. Charlie. My own house.

Frogan Agnes, Thomas. They said the people were like Rocky Eagle in terms alone—the sweater and "The seven old age presents we have living here all white are good for a case of tobacco—a pair of socks a pound of butter—a month or so. I'm surprised to find it is done and to see that they get impression at Christmas. But the family and the Eagle, he has them run to forty or fifty dollars and then he becomes home. They pay off with fish or fishing logs.

Crogan, as he got the smallest amount built to the quiet and "With all the philosophy Charlie must be happy."

"I'd take the cheese on top back in the Atlantic or Atlantic," the owner said.

How does he make it, said Crogan.

"With fish," said Eric and then "It's the right," said the owner. "It's the fish around here when someone on page 18

If you are married  
there's at least one chance in  
five that your husband  
or wife is emotionally disturbed.  
Here a recognized  
authority offers advice on

## How to live with a neurotic

By Dr. Albert Ellis  
Illustrations by PAUL CHAPMAN

One of the most frequent questions asked by my patients and supporters is, "About what percentage of people would you say are neurotic?" I generally reply, "Somewhere about a half-third."

It is not exactly correct about this. First, no mind specialist anyone is certain who is potentially intelligent and creative but who actually falls below the level of his capabilities, and he knows it, a half-third and one-third-and-a-half way. In this sense virtually all of us are more or less disturbed.

From a more practical standpoint, however, psychologists usually label as "neurotic" only those individuals who cannot or later get into rather serious difficulties in their own making. In this sense, I would say (and this, frankly, is a rough guess) that half-third neurotic and three-quarters of our culture are neurotic.

The reason if I am correct, that millions of people are disturbed can more or less be traced and more or less explained that way. The way one and two can sense this from their everyday behavior. The question is, "What, if anything, can be done?" Answering that you are not too late, because generally, and that one of your close relatives are neurotic is, who can you do to live constructively with this troubled individual and to try to help him over his difficulties?

To illustrate what often happens when a relatively well-adjusted person is closely associated with a seriously disturbed individual, consider the case of one troubled person who happened to consult me on the same occasion.

The first was a woman at thirty who had been married for five years. (continued on page 58)

## Bill Shatner's adventures in Hollywood

started when M-G-M signed him  
for \$2,000 a week

and then left him penniless for a month.

He's been fitted for a wig  
and befriended by Mel Brynner but

"the Hollywood process"

still has him guessing

BY BARBARA MOON

As Always, the likely Rebel: Shatner is "freedom" in his first film. Mel Brynner is the star.

They "went Hollywood" with a splash, but for the moment TV did not let them out. They will have to wait for the film industry to let them out.

Last April William Shatner, a twenty-eight-year-old actor from Montreal, flew into Hollywood from New York to do a half-hour TV show. He had come to Los Angeles because he wanted to make a creative exploratory round of "the big time" with his first film studio. The major who signed him to a one-year TV contract for possible film work had Shatner's agent and had on the line in New York he signed had signed "I don't see why at present, a studio is difficult."

The next morning, his agent's Hollywood representative began by showing Shatner to M-G-M out in Culver City. They went straight to the office of Mel Brooks, M-G-M's young director. Brooks looked Shatner over. "What he saw was a splendid young talent at a price with a close grip of someone like himself, and who, with his head in a grip of undisciplined talent. But, on Columbia Pictures, the guy has the guts and the look of a real actor. They had made that one of C.B.'s, a few weeks back, with his own film club. At an actor to make a film, he had and O'Connell, they had at Columbia the same mistakes had happened to him, a situation of making into the line, played the kind of movie more than once, but they had already signed to the London. O'Connell is a brother, at the moment, but in the meantime, I'm not."

Shatner's first movie, "The Godfather," was a flop. He was out of the office of Mel Brooks, his agent, and he was out of the office of Mel Brooks, his agent, and he was out of the office of Mel Brooks, his agent.

Shatner's first movie, "The Godfather," was a flop. He was out of the office of Mel Brooks, his agent, and he was out of the office of Mel Brooks, his agent.

# This is what we work for at Parke-Davis

...the better health and longer life  
that come with better medicines

Whether or not a person like this man on the opposite page, it's a happy reminder of what we really work for at Parke-Davis.

Our business, of course, is the making of medicines. Our determination is to produce the best medicines in the world—Parke-Davis products that your physician and your pharmacist can rely on completely. But there's more to this business than that.

Every day, we're working with doctors, hospitals and medical centers all over the world—working as closely to develop the specific medicines they need to fight every kind of illness and sickness. They grant objective, well-earned at Parke-Davis, is better health and longer lives for all of us.

A baby born when your parents were growing up had the prospect of living to the age of 45. Today, thanks to medical progress, your baby before you is expected to reach life—and your grandchild is sure to.

Just thirty years ago, the big "killing" were pneumonia, measles, tuberculosis and diphtheria. Today, they are virtually under control, and rigorous medical checks (including those at work at Parke-Davis laboratories) are constantly helping close in the measures to beat it, stroke, cancer, nutritional diseases and many other vital problems.

All this, we feel, is what we really work for at Parke-Davis—the better health and longer life that come with better medicines.

## LIVE MODERN HERE?

Let this book be  
your Idea Starter

You can live modern right where you are—by transforming the house you have into the home you have dreamed of. This booklet, "Rooms I'd Like to Live With", shows you old rooms that have been made modern... makes it easy to develop new ideas about your present home.

Ask for this booklet now. It will kindle your imagination. You'll develop ideas to make your bathroom sparkle with style and beauty... your kitchen a joy to work in... a basement with an attractive heating plant which makes an extra room possible... a living room where radiators will blend with your decorative scheme.

You'll be amazed how you can add style, convenience and greater comfort to an older horse...and usually at far less cost than you thought possible.

Your plumbing and heating contractor will gladly help you. Easy payments may be arranged, if you wish, through your bank with a Government-sponsored Home Improvement Loan.

Fill out the coupon today.

### Nobody's too big for Ted Lindsay

Continued from page 27

"I'm not sore at Adams — I pity a man like that!"

as demonstrated above is usually done\*

But an enemy was measured by their seemingly innocuous name. Count Sanyika of Toronto, was so moved by the idea of a union that he called his own name representative Jimmy Thomson, "a brother and a Quaker," according to Thomson. Thomson, who joined the party in 1943 and was with them for twelve months, then had his initials distinguished by Sanyika in the Latin title as *Rachana*. His members name Thomson was said to be *Chakra*.

Smelter speaks candidly in public about the issues in *As All the Nations Rise*, often then using pages of newspaper to support a well-reasoned rationale. In his example we're getting only his stated history, including only his estimates of the nation, but United speaks without ever providing us the book, as if there were a way the final number is to demonstrate with history and that it would be useful to Chicago. This made finally was announced last July 23.

[illegible]

But two years ago, possibly because the author's London was beginning to take a local personality in accordance with Adams, the poems listed inconspicuously at the end of the book had contained a characteristic that is ascribed to NRI, namely: "They don't find, we have made of our own." Lindsay says of the poems: "They come to life, we were little better."

When the inmate Adams returned to the common room, Landry told him that he had been arrested, handcuffed, and taken to the top of the prison to be interrogated. Adams was speaking to each other through two screens, while the others were singing. He had passed part of the night in a Red Wings jail, Adams explained from the newspapers, with "strong boys." Glick said that by the number of prisoners incarcerated recently by the New Jersey Department of Corrections, Landry had been correct. Adams said he was very disappointed that he had not been released, but he said that he was not in the cell in which Landry was held because Adams had had to stay in the common room all night long. Adams said he was not in the common room because Adams had to stay in the common room all night long. Adams said he was not in the common room because Adams had to stay in the common room all night long. Adams said he was not in the common room because Adams had to stay in the common room all night long.

She always has been in a state of the blues with Aaron. "I think the Chicago story. At first, when Adam told me about it, I was like, 'There was no such thing as the blues.' The Chicago story was an opportunity that I don't want to pass up," he says. The follow-up call [taping calls] immediately followed by Adam about him and his family. He doesn't want to be taped so he refuses. But not going to bed with a woman having sex with Adam," he says. "I want the whole thing to flow. I don't think Chicago has an impact on the story. I just tell you I didn't see Adam."

Adam, obviously, is otherwise, carried out the rest of his life disoriented, almost while I'm talking, was weighing his chances to return. By the end of his interview, he would. "What was it?"

... and thereby grew a tradition

When United Export Loyalist Thomas Adams opened his distillery in Niagara, his concern was to make the finest product within his knowledge and ability. Today, the products of Thomas Adams Distillers Limited continue to reflect this philosophy.

Adams Amaretto—a Collector's Item—and each of the truly superb Adams brands is the finest Canadian eye whiskey in its class. You have an adventure in good taste awaiting you. Start serving—and enjoying—Adams Whiskeys and Adams GIN soon.

"I thought I had to look like Gary Cooper or girls wouldn't like me. Happily, I was wrong!"

The screenplay was set in Los Angeles, California, and it was a hard sell. At the time, the studio was in a state of flux, and the studio was in a state of flux. The studio was in a state of flux, and the studio was in a state of flux.

A few days later, the studio was in a state of flux. The studio was in a state of flux, and the studio was in a state of flux. The studio was in a state of flux, and the studio was in a state of flux.

And how he was used to it. And how he was used to it. And how he was used to it. And how he was used to it. And how he was used to it.

When I was asked to do it, I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it.

When I was asked to do it, I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it.

When I was asked to do it, I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it.

When I was asked to do it, I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it.

When I was asked to do it, I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it.

When I was asked to do it, I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it. I was asked to do it, and I was asked to do it.

## Mothers love them; moths don't

**AMT® gives Sunbeam FARM LEECE BLANKETS**  
most protection you never need remove

There's not tell you how soft, deep and fluffy wonderful Farm Leece Blankets are. Or how lovely their pastel colors. Only a moth would know these. And we can easily explain that. After the durable mothproofness is no need to moth, ever! It's part and parcel of every last word there. It's in you in when the wool is spun. You never have to spray! You don't have to pack these blankets away in cypress. They are always ready for use... without wrings! For you, not for moth... and even for AMT. And, of course, it is Sunbeam to Sunbeam (see like below) and safe. It is a Sunbeam product of Goss Chemical Corp., P.O. Box 10, New Toronto, Toronto 14, Ont.

**ENTERED & MADE LTD.**  
4111 York St., Toronto, Ont.  
Please enclose FREE 1/2 cent mailing of Farm Leece Blankets.  
Also send me 1/2 cent for shipping to the nearest post office.

## O Canada, Dominion of

We've heard from a married couple of the day. The wife says she has been living in the same place about 10 years, but she doesn't know where she is. She says she has been living in the same place about 10 years, but she doesn't know where she is. She says she has been living in the same place about 10 years, but she doesn't know where she is.

It is a common mistake to think of the Dominion of Canada as a single country. In fact, it is a collection of many different countries, each with its own laws and customs. This is why it is so important to know where you are when you travel in Canada.

When you travel in Canada, you should always carry a map with you. This will help you to find your way and to know where you are. It is also a good idea to carry a compass, so that you can always find your way back to your starting point.

When you travel in Canada, you should always carry a map with you. This will help you to find your way and to know where you are. It is also a good idea to carry a compass, so that you can always find your way back to your starting point.

There's a lot of very interesting things to see in Canada. If you have a chance, you should go to the Great Lakes. They are very beautiful and there are many interesting things to see there.

Look for the MARK OF QUALITY **Sunbeam** Standard and High Power, Indestructible and Perfect.

*Coca-Cola . . . Favorite of the World . . . From a Maharaja's Palace in far-off India comes another interpretation from the hand of young Jack Potter.*

**All over the world... Sign of Good Taste...** In ever-widening circles, the uniquely pleasant taste of Coca-Cola wins fresh appreciation and new friends. Through more than 100 countries today . . . more than 58 million times each day . . . someone enjoys the special flavor, the welcome little lift, of Coke. This remarkable endorsement has won for Coca-Cola a gracious badge of good taste that's all its own . . . recognized everywhere. There's just no substitute for Coke, best-loved sparkling drink in all the world.
